Master distiller Luka shared some great insight on this barrel: This is a four-grain bourbon — their newest bourbon recipe — finished in a Calvados barrel from Vicard Tonnellerie in France. Calvados is an apple brandy from the Normandy region, and this particular barrel held the finish for about three months during the summer, allowing the warmth to develop a subtle but beautiful apple cobbler note throughout the whiskey. The barrel came in at 112.4 proof, delivering a great balance of flavor and heat.

Master distiller Luka shared some great insight on this barrel:

Soft wheated bourbon that was finished in a French oak Cognac barrel, also from Vicard Tonnellerie, during the southern Louisiana summer heat for 4 months, which enhanced the soft, sweet wheated bourbon notes. This one has an old French elegant brandy finish. Cognac is a brandy made from grapes.
