www.ucas.com

The website for researching university courses, entry requirements, writing personal statements and more. Now also includes information on options after GCSE's

Labour Market Information (LMI)

Labour Market Information effectively describes the world of work – ranging from descriptions of different careers, their entry routes, promotional prospects, salaries paid, skills and qualifications needed, etc. Crucially for young people, LMI also covers future demand – what kinds of jobs will be in demand after leaving school and what kinds of skills will be needed?

It is important for students to have access to LMI so they can see what roles are available, what qualifications are needed, how much you can earn, what the progression routes are etc.

Students and parents can see LMI data for a wide range of career options supplied by the National Careers Service [here](#).
