

HUE LENS COLORBOOST™ RX PRODUCT INFORMATION

The ColorBoost portfolio is made up of 16 patented, color-enhancing tints. Each tint was custom designed and tested for sport, medical and wellness uses cases. ColorBoost includes the following options:

Visible Light Transmission (VLT) Category 1 – 4

Traditional and contemporary colors (solid)

Polar and Nonpolar

Photochromic

Polar-Photochromic

Compatible with all industry-standard lens coatings e.g., mirrors, anti-reflective

Our lenses are available in ANSI Z80.3 compliant, 1.59 index lens material. ColorBoost lenses block 100% of UVA, 100% of UVB, and blocks 99% of harmful blue light (Cat 3). 1.59 upgrade options are:

- ANSI Z87.1 compliance,
- eco-friendly lens material, and
- recycled lens material.

ColorBoost is available in Finished Plano (dual lens and shield) and Semi-Finished formats. 1.59 Finished Plano lenses are available in base curve 4C, 6C and 8C; and 78mm 1.59 SFSV lenses (-8.00 to +7.00, to 4.00 cyl) are available in base curve 2C, 4C, 6C and 8.25C. Specific SFSV dimensions below:

| Lens Diameter | Lens Base | Front Radius (mm)* | Back Radius (mm) | True Curve** | Rear Curve | Center Thickness* (mm) | Edge Thickness* (mm) |
|---------------|-----------|--------------------|------------------|--------------|------------|------------------------|----------------------|
| 78mm | 2.00 | 0.756 | 130.75 | 1.98 | 4.05 | 10 | 12.90 |
| 78mm | 4.00 | 1.532 | 130.75 | 4.00 | 4.05 | 10 | 13.40 |
| 78mm | 6.00 | 2.30 | 87.17 | 5.97 | 6.08 | 10 | 9.84 |
| 78mm | 8.25 | 3.193 | 55.21 | 8.17 | 9.60 | 10 | 14.00 |
