Raritan Valley Pistol League (FEATURED GROUP)

October 22nd 7:00 PM

In a few short weeks, the frost will be on the pumpkin. That can only mean...that the **Raritan Valley Pistol League** (RVPL) will be getting together to shoot this year's Winter season. The practices are **October 22nd and 29th**. **The first relay for record is November 5th**. Bullseye shooters from any club are invited to compete in this .22 league comprised of as many National Match relays as they care to shoot in the 20-week duration of the season.

Shooting night is **Tuesday, starting at 6:30pm** and ending when the last shooter says "enough" or 10pm rolls around, whichever comes first. The commands are given by Lake Island club members.

The National Match Course, also known as the National Match Short Course or Gallery Match, is made up of 30 rounds. This course of fire is one of the most basic competition matches.

The first phase of the match is 10 rounds to be shot in 6 minutes using a slow fire target.

The second phase is timed fire where there are two 5-shot strings and each string is 20 seconds long, but this time using a timed/rapid fire target. This is the same target all of our applicants qualify with.

The final rapid fire phase is two 5-shot strings, each string being 10 seconds long. WHAT????!! Five shots in ten seconds? Believe me, it's a lot easier than you might think.

The cost of the league is **\$25 per season** and that includes a participation award. The award can be a t-shirt, hat, cleaning kit or some other useful item. And, of course, we are always available to talk about our shooting experiences, which is the best equipment to use, suggest tips and tricks to increase accuracy or discuss politics.

This a terrific way to expose yourself to competition in a very low stress way.

The meaning of the phrase "well-regulated" in the 2nd Amendment

From: Brian T. Halonen <halonen@csd.uwm.edu>

The following are taken from the *Oxford English Dictionary* and bracket in time the writing of the 2nd amendment:

1709: "If a liberal Education has formed in us well-regulated Appetites and worthy Inclinations."

1714: "The practice of all well-regulated courts of justice in the world."

1812: "The equation of time ... is the adjustment of the difference of time as shown by a well-regulated clock and a true sun dial."

1848: "A remissness for which I am sure every well-regulated person will blame the Mayor."

1862: "It appeared to her well-regulated mind, like a clandestine proceeding."

1894: "The newspaper, a never wanting adjunct to every well-regulated American embryo city."

The phrase "well-regulated" was in common use long before 1789, and remained so for a century thereafter. It referred to the property of something being in proper working order.

Something that was well-regulated was calibrated correctly, functioning as expected.

Establishing government oversight of the people's arms was not only not the intent in using the phrase in the 2nd amendment, it was precisely to render the government powerless to do so that the founders wrote it.
