

## Research Proposal Guidelines

**Purpose of Research Proposal:** This is to prepare you to write your thesis and have a good understanding about your research area. To produce your thesis as demanded, it is always a best idea to articulate as precisely as possible what you are planning to achieve and how you intend to approach it. Documenting a road map in advance will assist to properly approach your research in the best possible manner and to avoid potential pitfalls in your idea. In addition to the main purpose identified, this task will give you a sense of practice into something you will likely find yourself doing throughout your professional career. To get you into the picture, research proposals are regularly demanded for so many things from master's and doctoral thesis to grant applications and proposition for change. In such a case, your goal is to convince the reviewer(s) with respect to the merits, feasibility, and why your request should be considered. In our case, your research proposals should include the followings:

### **Title Page:**

To be precise, preferably not more than 18 words.
