

Link Direct to Checkout w/ ATC Brief:

Objective: Create Link to Direct to Checkout with Product in Cart

Upon opening up the link, it should execute the function below.

Product Page: <https://www.bbclass.co/product/building-blocks-course>

Function:

1. Send POST Request Payload ("application/json") to https://www.bbclass.co/wf_graphql/apollo
 - a. **Payload**

```
{{"operationName":"AddToCart","variables":{"skuld":"608b94924182df05f19f2513","count":1,"buyNow":true},"query":"mutation AddToCart($skuld: String!, $count: Int!, $buyNow: Boolean) {\n  ecommerceAddToCart(sku: $skuld, count: $count, buyNow: $buyNow) {\n    ok\n    itemId\n    itemCount\n    itemPrice {\n      unit\n      decimalValue\n      __typename\n    }\n    __typename\n  }\n}"}
```
2. Direct customer to checkout by sending GET Request to <https://www.bbclass.co/checkout> w/ same cookies.

Current Code in <head>

```
<script src="http://code.jquery.com/jquery-latest.min.js">
$.post("https://www.bbclass.co/wf_graphql/apollo", [{
  "operationName": "AddToCart",
  "variables": {
    "skuld": "608b94924182df05f19f2513",
    "count": 1,
    "buyNow": true
  },
  "query": "mutation AddToCart($skuld: String!, $count: Int!, $buyNow: Boolean)
{ecommerceAddToCart(sku: $skuld, count: $count, buyNow: $buyNow) {ok itemId itemCount itemPrice {
unit decimalValue __typename} __typename}}"
}], function(data){
  $.get( "https://www.bbclass.co/checkout", function( data ) {
    $( ".result" ).html( data );
  });
});
</script>
```

Problem:

Upon loading the script above, it sends a different payload in comparison to what it should send:

Desired Payload

```
▼ Request Payload    view parsed
[{"operationName":"AddToCart","variables":{"skuId":"608b94924182d405f19f2513","count":1,"buyNow":true},"query":"mutation AddToCart($skuId: String!, $count: Int!, $buyNow: Boolean) {\n  ecommerceAddToCart(sku: $skuId, count: $count, buyNow: $buyNow) {\n    ok\n    itemId\n    itemCount\n    itemPrice {\n      unit\n      decimalValue\n      __typename\n    }\n  }\n}"}]
```

Payload Currently Sending

```
{{"operationName":"FetchAllVariants","variables":{"productId":"608b94927e78ef10b3a8ff6e"},"query":"query FetchAllVariants($productId: BasicId!) {\n  database {\n    id\n    collections {\n      c_sku_ {\n        items(filter: {f_product_: {eq: $productId}}) {\n          id\n          f_price_ {\n            value\n            unit\n            __typename\n          }\n          f_weight_ {\n            f_width_ {\n              f_length_ {\n                f_height_ {\n                  f_sku_ {\n                    f_main_image_4dr {\n                      url\n                      __typename\n                    }\n                    f_more_images_4dr {\n                      url\n                      alt\n                      file {\n                        origFileName\n                        __typename\n                      }\n                      __typename\n                    }\n                    f_sku_values_3dr {\n                      value {\n                        id\n                        __typename\n                      }\n                      property {\n                        id\n                        __typename\n                      }\n                      type\n                      quantity\n                      __typename\n                    }\n                    f_compare_at_price_7dr10dr {\n                      unit\n                      value\n                      __typename\n                    }\n                    f_ec_sku_billing_method_2dr6dr14dr {\n                      __typename\n                    }\n                    __typename\n                  }\n                  c_product_ {\n                    items(filter: {id: {eq: $productId}}) {\n                      f_default_sku_7dr {\n                        id\n                        __typename\n                      }\n                      f_ec_product_type_2dr10dr {\n                        name\n                        __typename\n                      }\n                      __typename\n                    }\n                  }\n                }\n              }\n            }\n          }\n        }\n      }\n    }\n  }\n}
```

Action Items:

- * resolve post request to send desired payload
