### **Automated SEO**

The best automated SEO tools are really only useful if you have good keywords in the first place. This article explains why and outlines the main critical factors for search engine optimisation for your web pages and blog posts.

Keywords are what get you listed in search engines like Google, Bing, Yahoo. The best automated SEO tools are based on keyword optimisation. However, it's not always clear to internet marketers what factors are truly critical for ranking highest in the search results.
