

Adding Geojson and Styling a Map KEPLER.GL

Open [KEPLER.GL](https://kepler.gl) website..

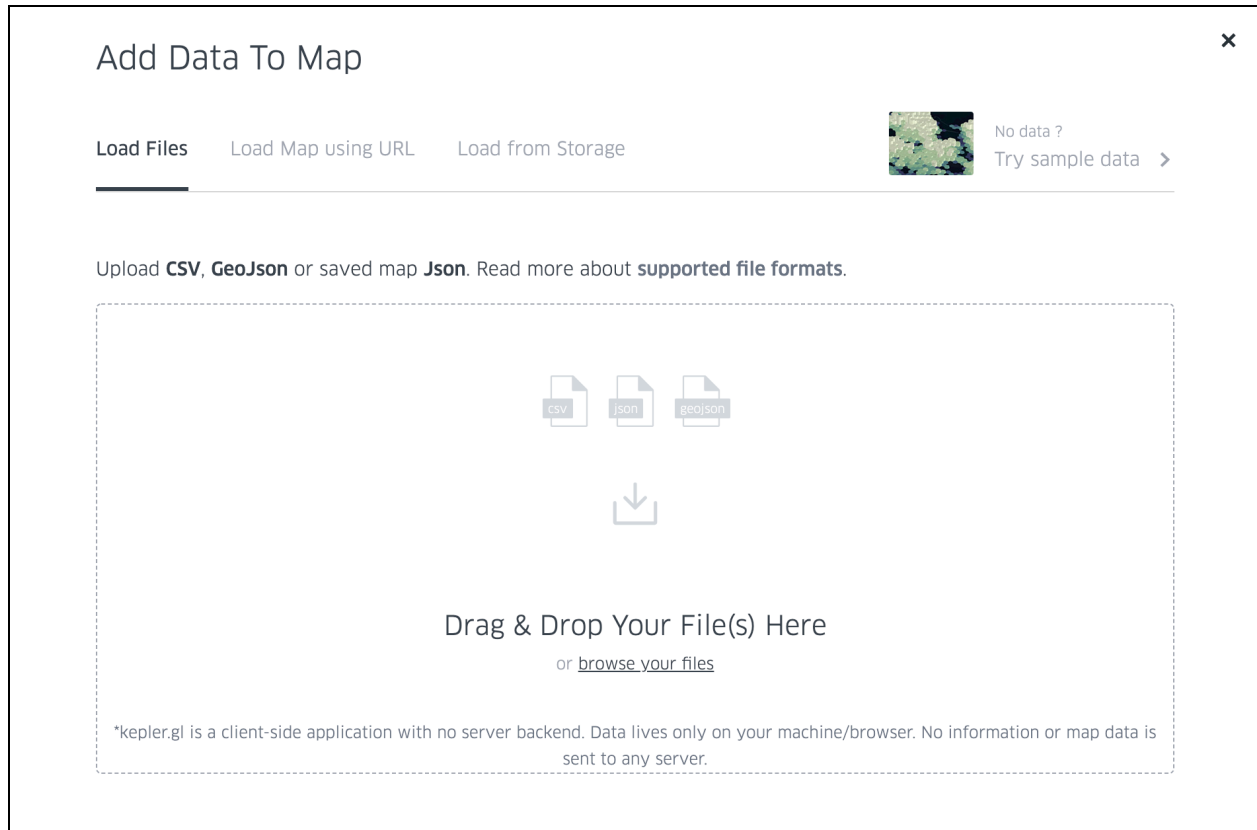

Download the Geojson file from Canvas

(see below)

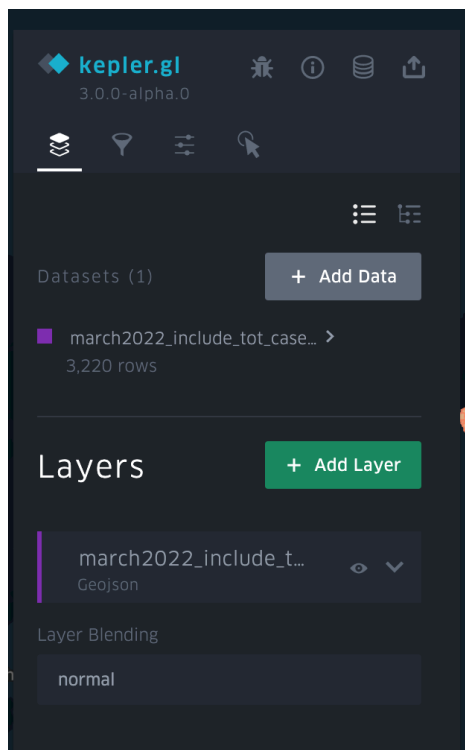

Click on **GET STARTED** button

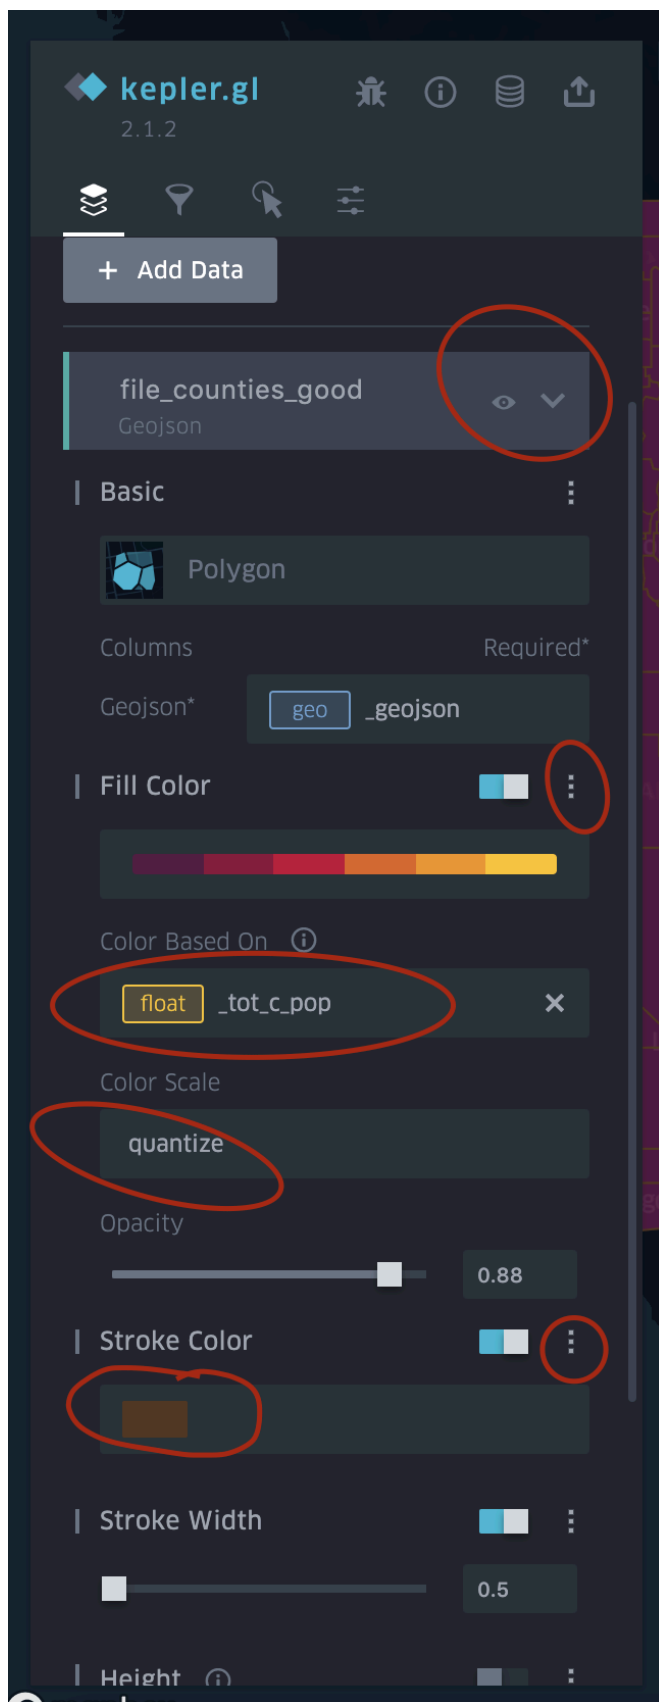

A dialog like the one below will appear. Drag your geojson file to the dialog.

Once you do it will look like nothing happened, but you will notice that the file will be added to the legend. See image below.

CLICK ON THE ARROW NEXT TO YOUR FILE AND A SET OF OPTIONS WILL OPEN UP.

CLICK THE DROPDOWN

CLICK THE FILL COLOR MENU

CLICK THE COLORS YOU WOULD LIKE TO USE

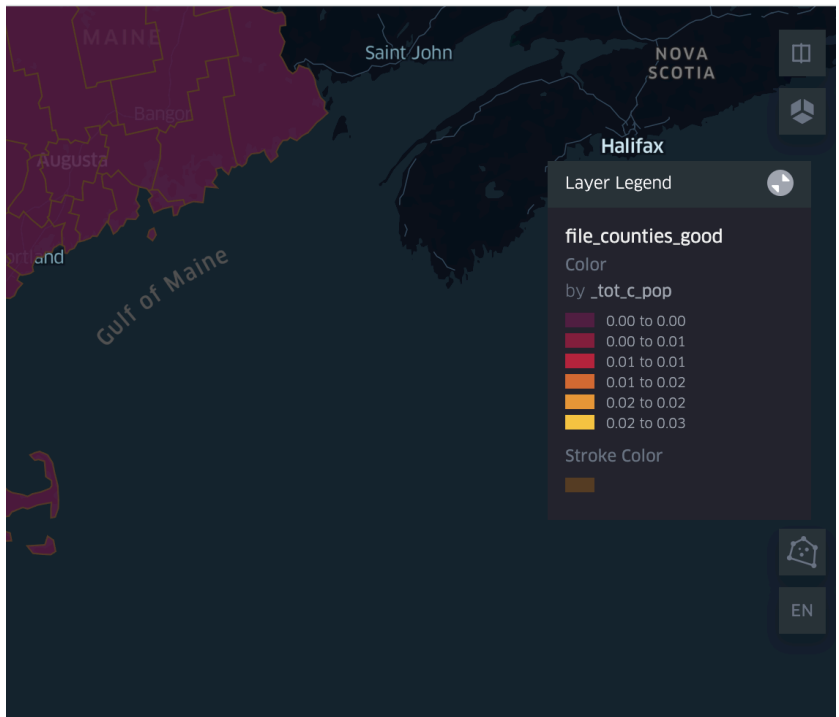

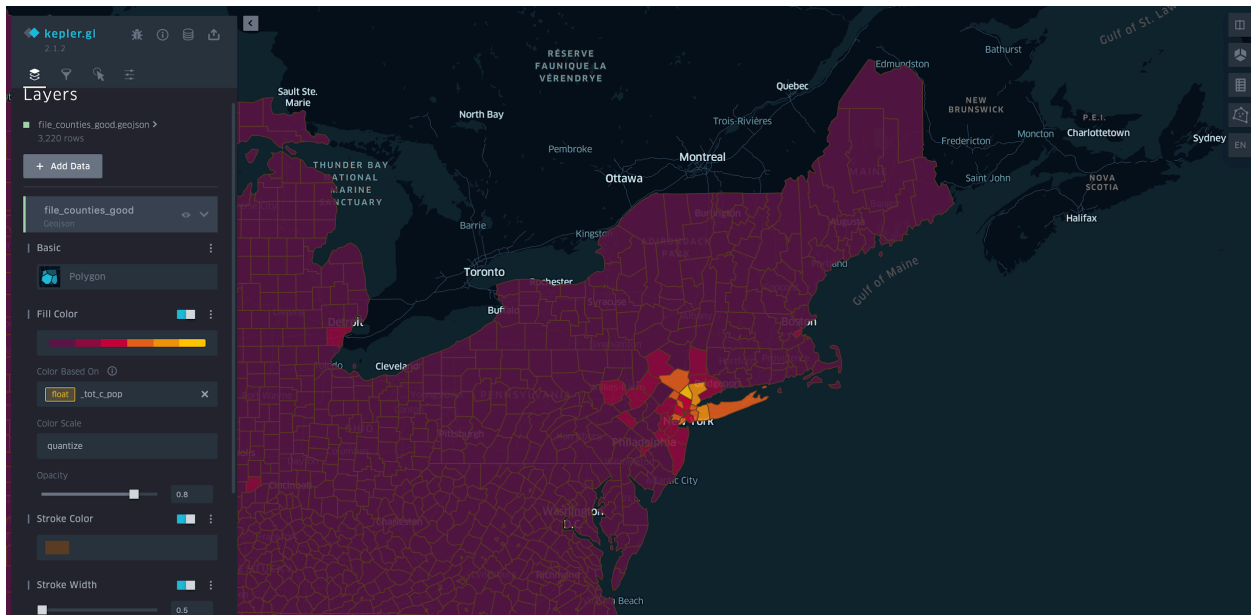

PICK THE FIELD YOU WANT TO DISPLAY DATA. I PICKED CASE PER POP.

PICK THE QUANTILE

CLICK THE STROKE COLOR MENU

PICK A STROKE

ZOOM INTO YOUR MAP

CLICK ON LEGEND
