

**[door open]** Puppy! Are you awake? Oh good, you are. I'm sorry I left you early this morning but I needed to sneak away for a bit. You've had a very eventful two days and today I just wanted to take care of you. Pamper you. So, I thought, what is another way of making sure my favorite person in the world feels loved? With a little bit of a makeover! Nothing drastic, it's not like I'm going to be changing your hair or how you dress. That might come later though. **[chuckle]** But a few accessories, a few little changes so that when you look in the mirror you are reminded that you belong to me and that you are loved. Anything I place on you today, you are not allowed to take off. I am the only person who can put them on you and take them off. That's how special they are. Consider these tokens of my undying devotion to you puppy. A little reward for taking your first fucking so beautifully for me. You already seem to have a much better disposition today. Slowly but surely you are being molded into what I want puppy. I'm so proud of you.

**[ruffling]** The first present is these thick cuffs. Aren't they pretty? They're made of black leather with some soft padding. They are going to be much more comfortable than what I have been keeping you in. These will allow you to use your hands but I can attach the mittens onto them if I so decide. I'm going to unlock you, I expect you to keep your hands to yourself puppy or else the knife is going to be doing a lot more than glinting in the light. Let's do your first paw. I'm going to attach the cuff while your hand is still restrained before I undo it from the position it is in.

**[lock and unlock]** There you go. That feels much better, doesn't it? It feels good to have movement back in your shoulder, right? You go ahead and stretch your fingers out while I do the other side. **[lock and unlock]** Now these cuffs have a fun little d-ring on them. That means I can attach them to lots of different things via chain. I won't have to do that if you are a good puppy. You want to be able to move your arms and fingers all on your own, right?

...Then keep being good for mommy little puppy. **[chuckle]** The cuffs are locked on and the key is going right here, in my pocket. The only person who is able to take them on or off is me. Now, onto the next accessory. I'm sure you want to be able to move your legs and be allowed to walk, right? **[ruffling]** Well, I bought these matching ankle cuffs for you. They are going to go around each ankle and of course they feature a d-ring. One of the reasons for the cuffs is that I'm going to attach a chain from your wrist to your ankle so that you crawl on all fours. **[lock and unlock]** You are going to learn how to walk like that and soon it will be more natural for you to crawl than it will be to walk. Once a week, I will allow you to walk and use your hands like a normal human so that there is no damage to your body but I would prefer you crawl as much as possible. After all, puppies belong on the ground following their owner everywhere. **[lock and unlock]**

I'm trusting you to not kick or punch or fight mommy, you aren't going to break that, right? You are a good pet for Mommy. A good pet gets spoiled in pleasure and praise. If you keep being this obedient for me, I won't have to ever hurt you again. Doesn't that sound nice? Just a life of being cared for and loved and appreciated by someone who would destroy the entire world if it meant having you all to herself. **[chuckle]** Don't break my trust puppy. I am giving you a very short leash, don't abuse it or else you will be back at where you started. Now, show me how grateful you are for this chance to prove how good you are, spread your legs for me. I need access to your asshole for this next accessory. **[rustling]** Very good puppy! This toy, I think you are going to enjoy. Ta da! It's your very own tail. I couldn't decide between a rubber one or a fluffy one but ultimately decided on a fluffy one since it is your first tail with me. It has a smaller plug and it is to get you used to constantly being plugged. Once we work you up to the next side, I'll decide if I want to switch to a rubber one or keep you with a fluffy tail. Or maybe you'll have both! Isn't that exciting?

**[wet noises]** But I'm going to need to prep this tight little hole. You'll get used to this puppy. Soon you'll feel weird without a plug. You won't be comfortable without a tail nestled between these cheeks. After all, every proper pet needs a cute tail that they can wag. How else would their owner know they are happy to see them? **[chuckle]** I'm going to insert the first finger now. I'm going to take it slow, make sure I don't hurt you. I want this to feel good. You'll learn to love the feeling of Mommy's fingers entering your asshole. **[improv anal fingering with lots of praise]**

Alright, I think that's good enough. The plug isn't that big, I got a size small because I wasn't sure what you would be able to take and I don't want you to tear. Now I'm going to lube up the stainless steel base. Keep your legs nice and spread for me. You are doing so good, puppy. Mommy is so proud of how you are behaving today. If you behave like this everyday, you'll never have to worry about being punished again. **[chuckle]** Now, it's time for your plug. **[wet noise]** There we go. I need to give it a few tugs to make sure it is nice and settled in there and won't fall out. **[chuckle]** You like that, don't you? It feels nice. The the soft fur against you, resting right between these gorgeous asscheeks of yours. I'm so glad I went with a tawny colored tail for you, it looks so cute! You are looking more and more like a pet with every addition I add to you. Remember, you are not to take out the tail. Only mommy is allowed to touch here. Only mommy is allowed to put the tail in you and take it out of you. If you need me to remove it for any reason, all you have to do is ask and I will. I am going to start you with an hour a day but it will move up to all day everyday except when the asshole needs to be used. Bark if you understand.

...Such a good pet! You are coming along nicely. I'm so lucky to have such a sweet little thing to call my puppy. I know we didn't have the most conventional start to our current relationship but it seems I was right. Fucking you yesterday showed you your place. It helped you learn just how much I love you and care about you. How utterly devoted I am to you and that this is for your own good. Which means you've earned this. **[rustling]** I wasn't going to give it to you if you tried anything funny today but you were so good. You took everything for me so well that you deserve this. Your final treat. It's a matching collar to your cuffs. See, it even has a tag! On the front it says "Mommy's Puppy" and on the back it says "If found, call 857-623-168". That way, if you ever get lost, someone can help you find home. What do you say to mommy for getting you such a nice collar?

*Thank you.*

**[locking noise]** You're very welcome puppy. I just knew this set would look darling on you. The further you progress in your training, the more sets I'll get you. I want to spoil you with options. Soon, you'll be able to pick a collar and cuff set like other people pick out clothes! **[kiss]** You look so fucking my pet. Like a proper pet now. This means you are officially mine. There is nowhere else for you to go. Your home. You are staying with me forever. The outside world had their chance with you and they lost that privilege. You are simply too precious for them. But don't worry, Mommy is here. Mommy is going to protect you, care for you, love you. All you have to do is be good for me. Doesn't that sound nice?

**[kiss]** I'm so proud of you puppy. You made me very happy today. Dare I say you made me proud. I understand that you are going to need some time to adjust, get used to your newfound freedom. I'll be back in a little bit. I'm going to allow you some space to get used to your new decorations, stretch out your limbs, check out some of the stuff in your room. You've probably been bored laying here with nothing to do for the past few days. I brought down some of my favorite books for you to read if you want to check them out. Slaughter House Five by Kurt Vonnegut, Lost Souls by Poppy Z Brite but that one very messed up so read the blurb before you check it out, I also brought down We, The Drowned by Carsten Jensen and Dead Souls by Nikolai Gogol so you have quite a wide variety to pick from. I'll be back with a snack and some juice. Be good and enjoy your reward. You've earned it my love. **[kiss]** Have fun!
