

GENERAL INFORMATION

™What is Subliminal?™

Subliminal (audio) messages are affirmations that bypass your conscious mind and go straight into your subconscious. These hidden positive affirmations are embedded in the music, just below your hearing level. Because your conscious mind is not aware of the subliminal suggestions underlying the music, it can't put up barriers against it. That's why subliminal affirmations avoid any resistance, which would usually hold you back. Your conscious mind will hear only music, but there is much more happening behind the scenes! With repeated listening, your subconscious mind begins to accept the suggestions as true. Day by day, it'll become easier for you to reach your goals because you now have tapped into the power source – your subconscious mind. (CR : successsubliminal)

™How long should i listen to this to get a noticeable result?™

I'd say 1 week to 6 months, but it really depends on each person. I've seen many people that got result in ONE listen. Never limit your subconscious mind!

™Can i download this?™

Yes, MP3 will work just fine. You don't need to download it in WAV. or FLAC. because yt converted the video audio into MP4. So you'll just waste your precious time and storage to download it in WAV.

™Can i bundle/speed/layer this?™

If i mentioned that the subliminal contains frequency, DO NOT do that. (bundle = many subliminal in one playlist, sped up and combined to 1 short audio)

™Can i trust you?™

Yes, you can. I've been in this community since 2016-2017. I promise i only put positive and effective affirmations in my subs. I want to help people to reach their goals. Plus, i also use my own subs. But at the end of the day, it's your choice. If you don't trust me, don't listen to my subs, and just follow your intuition.

™Should i wear a headphone or earphone? What if one of them don't work?™

You can listen to subs with or without headphone or earphone. Also, it's okay if one of them is broken. But i suggest you to use them, for best experience. PS : if the subs contains frequency/binaural beats/8D affirmations, please wear headphone and set them to "stereo" at your phone setting, for better experience.

™I've listened to my playlist for *insert a long time* hut i don't see any result. why?™

REMEMBER that you are infinity, limitless. Don't keep searching for results bc IT IS ALREADY HERE. you already have your results and you have to believe it. Read "Solar Subs's" Guide (search at yt).

 All of my subliminal are unisex, unless i mentioned it on the title/description. Can be used by any age.
