Teacher: You know, the greatest cinema empire is Hollywood, the inventors of the cinema, were the French. The Lumiere brothers demonstrated the

first 3 minutes film “Arrival of the train”
(<https://www.youtube.com/watch?v=1dgLEDdFddk>) in 1895. Let’s watch it.

As you could see it in that film, a train came towards the camera. People ran out of the cinema, thinking it was a real train. Many years have passed since that day, and now, we can't imagine ourselves without television.

Cinema combines different arts. That’s why people of different professions are involved in film making. Who are these people? Match professions and what they do.
