

I started teaching in 2019 at Park Hill. Teaching has so many perks and joys, and I believe that the students can be so inspirational for us as adults. They have creative thoughts, can work hard, and are able to be flexible when needed. I love to teach and live for those "Ah-Ha" moments. The moments in which the learning clicks for the students and they know they have grasped the material. The joy on their faces make it worth it! I love being a part of a close knit community such as Park Hill and find happiness each day I am at the school. One other thing I love is building relationships, not only with my current students, but their families and siblings too! Outside of teaching, I love to attend concerts, enjoy arts and crafts, reading, and when the weather is nice, a good little hike to enjoy our beautiful state. I am so happy for another year at Park Hill, and know it will be great!
