

Create your own Vocab Quiz

Use Quizlet, Kahoot, or another quiz making website to create and share a vocab quiz to learn the key words for this key idea and their definitions.

Your quiz should include at least 10 keywords associated with free will, e.g. free will, choice, responsibility. Words and definitions can be found on the Faith Alive Website in the following [glossary](#).

In this activity you could work individually or collaboratively in pairs. Once you have created your quiz talk to your teacher about how you could share it with your classmates.
