

Road map for full stack development

Days 1-7: HTML

Learn HTML basics like tags, attributes, and webpage structure.

<https://youtu.be/FYErehuSuuw?si=8gmOMR5-GmU0LanB>

Days 8-30: CSS

Focus on styling web pages with CSS, covering selectors, properties, and responsiveness.

<https://youtu.be/vfs1wBDogBY?si=GKuKhkm-p3UKbMpz>

Days 31-46: Basic JavaScript

Dive into JavaScript basics: variables, data types, and functions.

Days 47-61: Advanced JavaScript

Advance your skills with closures, prototypes, and ES6 features.

<https://youtu.be/MIA05uGvAq4?si=ILJxM1PNUUYoNQte>

Days 62-65: Responsive Web Design

Master techniques for designing responsive websites.

https://youtube.com/playlist?list=PLTh-0bX0YNU90uQHZZmu_FUyTn8wZQZfC&si=sizFuSFLfJMPqGUA

Days 66-80: Node.js

Learn Node.js for server-side JavaScript development.

https://youtu.be/SdyzXQoQO18?si=x_zWebxiZh-x8OSs

Days 81-95: MongoDB

Explore MongoDB for NoSQL database management.

<https://youtu.be/0zwYbudzaJc?si=Z77ipZ8isZuqkXVQ>

Days 96-104: React.js

Discover React.js for building user interfaces.

https://youtube.com/playlist?list=PL4unWLKFsZffVNM7JwUkNwmcLDMx3fivO&si=mQ_rUHSPhuzwHBH

Days 105-113: Git/GitHub

Learn version control with Git and GitHub for collaboration

<https://youtu.be/VIBWdLLq9kQ?si=Zgt1pke7p6cP3HLn>

Days 114-126: JSON API

Explore designing and consuming JSON APIs.

<https://youtu.be/SAtbhfnBzks?si=3hWYIg6nJ8DCPnNJ>

Days 127-138: AWS or Google Cloud

Choose a cloud platform and learn its fundamentals

<https://youtu.be/DaSt-5tTmG4?si=4WVZO5qqnmbaRghO>

Days 139-150: Revision

Review and reinforce your knowledge.

Days 151-180: CSS Frameworks and Projects

Experiment with CSS works and work on projects to apply your skills.
