Montgomery County Public Schools

MONTGOMERY COUNTY PUBLIC SCHOOLS

Registering with the Montgomery County Public Schools (MCPS) will be transferring to a new student information system called Spring. The parent component of Spring, ParentVUE, requires the MCPS Parent Portal that you may have used in the past. The new user will provide new real-time access to the system and will require a new username, password, and activation code and rules. You may access ParentVUE online, but for a full mobile experience, we encourage you to download the ParentVUE app from the Google Play Store or Apple Store, as this app will replace the current mobile application.

ParentVUE will support your various devices and you can use it on your phone or tablet. You will see additional options to select from when you select a device to use. Together, we are excited to see you use the new ParentVUE app to access your child's information and data.

You get notified with your own Personalized account:

- Open your account to view your account
- Search for "my account"
- On the following page, select More Options in the lower right-hand side
- Select the link to Activate Account

**Activation Key**

Please note: The activation key provided to you by your district is the provided their user ID and is the part of the activation code. Please contact the school if another parent/guardian in your family needs to activate their ID.

Thank you for using a partner with us in our student's education. We hope you find this tool helpful if you have any questions or if you do not receive your letter, please contact your student's teacher.
