

Resources for the Summer

While it is important to take a break from school and enjoy some unstructured time and freedom from schedules and obligations, it is also important to nourish the whole child, and children thrive on routines. Please accept these resources and choose what best suits your family's needs as you enjoy a summer of discoveries and wonder with your child. These are mostly online resources; please remember that reading, creating and spending time together as a family are all valuable opportunities for the healthy growth of your child. - Ms. Davishines

Today, I have done something for:

My Brain

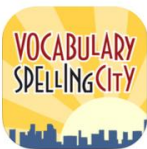

BrainPOP Jr offers over 1,000 short animated movies for K-3 students with quizzes and related materials, covering a variety of subjects.

Discovery Education offers students 1,000s of short movies and activities for students in grades K-12 covering a variety of subjects.

MackinVIA provides easy access to eBooks, read-alongs, audiobooks, databases, and videos. MackinVIA also provides access to **Tumblebooks**.

VocabularySpellingCity is an award-winning, game-based website and app used to build K-12 literacy skills in vocabulary, spelling, phonics, and writing. Educators and families can customize more than 40 engaging activities for students at every learning level, creating their own word lists or using thousands on the site.

AISD Library Databases provide a plethora of online resources that provide vetted, age appropriate, engaging content and activities for students for all grade levels and subjects. Many resources are available in Spanish and a variety of other languages.

Tumblebooks, TumbleMath, Teen Book Cloud (6-12) provide a wealth of online books for students to access and read. Students will find these in the databases menu inside [MackinVIA](#).
