

Indigenous Competencies Trip 2019

Location	Science	Social
Telus Science Centre	identify different ideas about the nature of Earth and space, based on culture and science The Indigenous people of North America connected with the night sky in fundamental ways they resonated with their world. In <i>Legends of the Northern Sky</i>, we learn and appreciate their stories in the stars and in turn, learn a little bit more about the spirit that connects us all. investigate and illustrate the contributions of technological advances—including optical telescopes, spectral analysis and space travel—to a scientific understanding of space S.P.A.C.E. (Stars, Planets, Astronauts, Comets, Etc.) Gallery - Boldly go where no one has gone before and blast-off on an action packed adventure through the universe as you analyze space environments, and identify challenges that must be met in developing life-supporting systems With never-before-seen 70mm footage and a trove of newly discovered audio recordings, the filmmakers reconstruct the exhilarating final moments of preparation, liftoff, landing, and return of this historic mission—one of humanity's greatest achievements and the first to put men on the moon.	For historical and constitutional reasons, an understanding of Canada requires an understanding: • of Aboriginal perspectives • of Aboriginal experiences • that Aboriginal students have particular needs and requirements. The Indigenous people of North America connected with the night sky in fundamental ways they resonated with their world. In <i>Legends of the Northern Sky</i>, we learn and appreciate their stories in the stars and in turn, learn a little bit more about the spirit that connects us all. What societal values underlie social programs in Canada and the United States? AND How do the economic platforms of political parties differ from one another (i.e., Democrat versus Republican) With never-before-seen 70mm footage and a trove of newly discovered audio recordings, the filmmakers reconstruct the exhilarating final moments of preparation, liftoff, landing, and return of this historic mission—one of humanity's greatest achievements and the first to put men on the moon.

Royal Alberta Museum

investigate and interpret dependencies among species that link the survival of one species to the survival of others

Discover stories of the fascinating animals and plants found in our province's three ecological zones

identify evidence for, and describe characteristics of, bodies that make up the solar system; and compare their composition and characteristics with those of Earth

We are reuniting this manitou stone with the earth, something that it hasn't had for 150 years," Robinson said. "The imagery on the inside of that circle, it will look like that landscape as much as possible."

How does legislation such as Treaty 6, Treaty 7 and Treaty 8 recognize the status and identity of Aboriginal peoples?

The museum opens in 2018. Visitors will be greeted by a special welcome acknowledging the building is located in Treaty 6 territory.

We are reuniting this manitou stone with the earth, something that it hasn't had for 150 years," Robinson said. "The imagery on the inside of that circle, it will look like that landscape as much as possible."

What factors influence immigration policies in Canada?

Encounter personal stories and multiple perspectives of the achievements and tragedies of the cultural and economic exchanges between Indigenous people and European newcomers from 1680 to 1880.

How do government decisions on environmental issues impact quality of life?

Discover stories of the fascinating animals and plants found in our province's three ecological zones

Historical thinking allows students to develop a sense of time and place to help define their identities.

- Hands-on activities highlighting traditional clothing, the rune alphabet and Viking games
- Interactive components including an opportunity to pick up a precise replica of a Viking Age sword to feel its weight and balance

Striking multimedia and 11 interactive stations bring this historic exhibition to life.
