

## **PRIVACY POLICY – Medye**

We've done our best to cut through the legal jargon and explain in simple terms what information our third-party SDKs collect about you.

Please read this privacy policy carefully. It applies to all interactions you have with our Android apps.

This Privacy Policy illustrates what personal information you may share with us, when installing and using this application ("Application"). It also describes how we receive, collect, process and use such information. We will diligently respect your fundamental legal rights to data protection and privacy.

("we" or "our") when installing and using this application ("Application"). It also describes how we receive, collect, process and use such information. We will diligently respect your fundamental legal rights to data protection and privacy.

## **THE INFORMATION WE COLLECT**

It's very simple, we don't collect any personal information from you. We use third-party SDKs and they might collect information such as location, device id to improve the service they are providing within the apps. Please find below their respective policies.

We will collect technical information that may also be personal data (e.g. IP-address, device ID number etc.) from your device in order for us to be able to provide the functionality of the Application. This collected information is required for us and for our sub-suppliers to verify that your device is accurately registered. We reserve the right to use such information for statistics and user support.

Further, we will access and process information on your specific use of the Application, your location, device information, contact lists, interactions with other elements in the Application, Google Advertising ID (AAID), Apple Identifier for Advertising (IDFA). Some services that are part of the Application may require a specific consent from you. Where a specific consent is required, we will let you know and ask you to provide us herewith.

## THE THIRD PARTY SDKs AND THEIR RESPECTIVE PRIVACY POLICY

We use 4 different SDKs in almost all our apps, they are listed below:

Firebase: <https://firebase.google.com/policies/analytics>

RevenueCat: <https://www.revenuecat.com/privacy/>

## DATA STORAGE

It's very simple again, we don't store any information from you on our servers.

## OPT-OUT FROM DATA COLLECTION FROM THIRD PARTIES

Users can opt-out of all information collection by removing the app from the device.

Users have the right to ask the third party SDK (contact email in their policies) not to continue the processing of personal data. Users can exercise their rights to prevent processing by contacting them using their email.

## Security

In accordance with applicable legal regulations, we undertake any reasonable measures to ensure data security, although we are unable to assure that your personal information will not be subject to unauthorized access, unauthorized use or abuse.

In order to ensure data security, we will in consideration of appropriate technical possibilities, ensure that only authorized persons to receive access to the data for legally permissible purposes, protect stored or transmitted data against accidental or unlawful destruction, loss or unintended changes and unauthorized or unlawful storage or processing, unauthorized access or unauthorized or unlawful transmission, and comply with all applicable data protection provisions.

We also recommend that you take additional steps towards protecting yourself and your information, such as keeping your login information and passwords secret and making sure you regularly update the software and apps you've downloaded.

## **Transfer of data**

For us to be able to deliver the Application and its functionalities to you, we use third-party sub-suppliers, to whom we may transfer data. Our sub-suppliers have all guaranteed that they will live up to the terms of this privacy policy, including ensuring safe-keeping of your personal data. With your acceptance of this Privacy Policy and by using the Application, you agree to the processing of your data in the form of a transfer to third parties.

Currently, we are using the following sub-suppliers as data processors to whom we transfer your data:

Google Firebase.

All of our sub-suppliers reserve the right to use the transferred information for statistics and user support without restrictions regarding applicability in time.

Please note that we may also disclose information associated with you as well as contact information to third parties if required by law, in order to protect or defend our own rights.

## **CONTACT**

We'd love to hear your questions, concerns, and feedback about this privacy policy. If you have suggestions for us, let us know at [zoincofficial@gmail.com](mailto:zoincofficial@gmail.com)
