

Breaks

How do breaks work with us? Here's the breakdown:

- We allow you to eat and drink while working, so long as it doesn't interfere with your work responsibilities and you follow proper food safety guidelines.
- Any breaks given will be paid.
- They're given at the manager's discretion. If there's time and proper staffing to give you one, we will.
 - And keep in mind, because we allow you to eat and drink while you're working, we are not required to give you a break (but we will if we can).
 - Also, if you are on a break and we need you to come back and help quickly, we are able to require you to do so.
- Because breaks are paid, we require you to stay on our property.
- We have a dedicated break area for employees to take a breather and rest. It's small, but it'll do the trick!
