

# Ticket reservations for *Thunderbodies*

The Macalester Theater and Dance Department presents *Thunderbodies*, our Spring 2022 mainstage production!

*Thunderbodies* takes place in a world where the weather is completely out of whack, new bizarre animal species dominate the land, and America has three presidents.

General Michail brings important news to Grotilde, the woman he has been passionately in love with for fifty years. The long-lasting war America was conducting somewhere far away, is finally over. The “vague enemy” was defeated...it is either that or the army ran out of money for tanks. He proposes marriage. Grotilde has a better idea. Suspecting that their marriage, like many before them, will end with divorce, she proposes to start with it right away. Two of them enthusiastically plan the most awesome divorce party. However soon they found out that Grotilde’s only son refuses to leave the front and stubbornly continues war by himself. Before they could proceed with the plan Michail needed to go and bring him home.

The world of this play is not realistic. Its characters are larger than life and their bodies are distorted.
