

Nov 5, 2024 | 📅 November SCC Notes

Council Attendees: Jenna Olson, Lindsey Huber, Lynnett Brewer, Liesel Johnson, Brittany Barry, and Christine Curtis.

Public Attendees: Jaki King, Julie Lewis, Patricia Helquist, Baylee Spence, Josh Nielson, and Kim Young.

Absent Council Members: Zoey Johnson

Purposed matters to be discussed:

- **Teacher Interviews for SCC**

- ~~1- SCC funds are used to pay our PE teacher. Would you please explain how or if the PE program benefits your class, if there is anything you would change about the program, and any comments you have about the PE teacher program?~~
- 2- SCC funds are used to pay for a fine arts teacher. Would you please explain how or if the Fine Arts program benefits your class, if there is anything you would change about the program, and any comments you have about the Fine Arts program?
 - Students have the opportunity to get the fine arts standards twice a week.
 - Fine Arts helps to allow students to be successful in areas that they might not otherwise be successful in.
- 3- SCC funds are used to pay an upper lab computer aid 2.5 hrs a day. Would you please explain how or if the Math Intervention program benefits your class, if there is anything you would change about the program, and any comments you have about the Math Intervention program?
 - This para helps to support reading groups in the upper grades.
 - This para also helps to support interventions and extensions.
 - Could not do the things that we do without this para.
- 4- At MES we strive to use technology to help facilitate high quality instruction. What software that is purchased by School Land Trust money would you like to see purchased again? Is there any that you could find a free alternative for? The technology that we purchase using School Land Trust funds are:
 - **IXL**
 - **Mystery Science**
 - **Generation Genius**

Please keep all the programs. If we could extend Generation Genius to all grades the teachers would be happy.

- ~~○ 5- SCC funds are used to pay for part of the lower lab computer aid. Would you please explain how or if the lower lab aid helps your reading and math program, if there is anything you would change, or comments you have about the lower lab?~~
- 6- If you were in charge of the world and could use SCC money to help you as a teacher and benefit your students, what would you spend SCC money on? Why? (Name a few things be specific and realistic)
 - Math Self Correcting Program like the High School.
 - Soda Machine in the Workroom. (Joking)

Items to be Voted On:

Nothing

Comments: No comments were made that didn't align to the interviews.
