Judgment:

The Hon. Justice advancedgaming12:

- Winston_Wilhelmus - Referral is invalid

The member was on leave for the items of business he was referred for and as such the items should not have been counted against him and the referral is invalid

- CardboardGradient - Referral is invalid

The member was on leave under the same circumstances as above, and as such those items do not count negatively, and the one vote the member missed does not put them in foul of any requirements

Justice _slothsworth: I concur with advancedgaming12
