

Task #7 - Having a Native German student over at my house for the day.

(8 Hours)

4/16/23

Reflection:

My school had a foreign exchange student this year that came to us from Germany. He is living with a host family in Smithfield that has been watching after him for the past year. It is almost finally time for him to go home once the school year ends. I decided to invite him over to my house before the year ends so I could work on some German with him as well as let my family get to know him. He came over in the morning and we went for a walk where he met one of my neighbors walking their dog. They were an older couple who were very intrigued to meet him. Then we went home and studied some German, and watched a movie. Finally I made dinner for him and my family and then he went home. It was a great experience that helped me get closer to him outside of school and work on our language learning.
