1. Sandro Hawke (W3C/MIT, HawkeWorks).
2. ...

2. Announcements

3. How to convey signal data in RDF?

How to express this in RDF (from [Signal: Date Website First Archived](#)):

- There was a website operational at URL [<https://news.mit.edu>] as early as isodate [2015-09-02], as shown in the archive page at URL [<https://web.archive.org/web/20150902023223/http://news.mit.edu/>]

Abstract to: There was a website operational at URL ?site as early as isodate ?date, as shown in the archive page at URL ?archive.

Style 1 (bad): ?site cred:operationalAsEarlyAs ?date; cred:evidence ?archive.
