

- TR3M0R5 -

Hey there, I'm Max :)! Thank you for your time and any kind of support you would be willing to give, it all means a lot!

Carrd: <https://tr3m0r5.carrd.co/>

Commission Info:

By commissioning, you accept my T.O.S.

- ★ There is a standard of my commissions starting at at least \$5 (minimum comm), but putting in the time, thought, and effort into account, most things sold will be priced higher.
- ★ I require at least half price paid before I start the commission OR after the sketch to prevent scams. I will not start if this is not paid beforehand. If you refuse to pay when complete/after the sketch I have full rights to do whatever I want with the art, regardless if your character is used.
- ★ I will not by any chance change my prices for you because of any reason, especially guilt tripping. (aka don't go around saying that your dog just

died and you want free art) ***If I have announced an offer/that the prices are different, this rule doesn't apply*

- ★ Going off of that, no, I will not be giving out free art to people who ask. The only instance this will happen is for gifts and giveaways.
- ★ If you are unresponsive for at least one week after commissioning me, I will not resume your project, even if you come back after. I will lose trust if you give a reason to. There is no reason for you to take up my time and hold a place for you just to ghost me. (If there's a set reason that you communicate with me beforehand I may make an exception)
- ★ Refunds are only allowed after I make the sketch. If you have approved of it, you will not be able to refund after. (if you issue a refund you will NOT get rights to the sketch)
- ★ I will NOT accept commissions if you do not have some sort of digital art ref so that I can accurately color match your character. (unless you give me creative freedom)

Order Form and Process:
