---

#### MultiTracks.com / Front End Developer

March 2016 - Present, Austin TX (4.5 years)

Tech Stack: WISA, Node.js, Vue.js

- Developed ongoing UI for client-facing website
- Cataloged and refactored entire css library of the site
- Helped organize and implement a new design system
- Worked directly with designers to prototype and implement new designs
- Learned languages and co-ordinated with other design and development roles (.NET app, Typescript, SQL, Zendesk App Tools, Vue.js, etc.)
- Refactored client-side scripts from Vanilla JS and jQuery to Typescript, created several Vue apps
- Prioritized mobile-first responsive design and quick page load

#### Ryan Painter Design / Freelance Developer and Designer

2011 - Present

**Everything.** Squarespace sites, Album art, magazine illustrations, Webflow Sites, Wordpress Sites, Logo Design

---
