Pricing Model and Payment Options

UKEssay.com Review **UKEssay.com Review** The situation will have been bearable if you are not going to experience a fault in the assignment. The minimum price you could find on UKEssays is \$129. This price is high and does not encourage low-income students. .

The Appearance of the Website: First Impression

Quite commonly, reviewing the website's design allows one to quickly define whether the service is a scam or not. Here we can see that the interface of UKEssays.com is far from being ordinary. Usually, all academic writing websites have similar simple designs with bright colors. This service looks unusual in comparison with them. The abundance of textual information may confuse the user. It would be good to reduce it because not all the information here is necessary. Savvy Internet users won't have problems with navigation on a site. The main page of the website gives access to all the necessary sections. The toolbar at the top of the page contains the sections with services, reviews, samples, free resources, etc. The blocks below let the user place an order. So, you even needn't look through the whole page. If you can't find something, you may use a search bar that's also at the top of the page. On the whole, the main page lets new users gain an overall view of the services of UKEssays.com, find out more about its benefits, and see the video presentation of the company. If you want to create an account, you need to place an order and it will be created automatically. By the way, the website is constructed in contrasting colors that make all information easy to read. On the other side, a bit complicated structure of the website makes the search of the information more difficult. Many students wishing to buy a well-written paper wonder "Is UKEssays legal or not?". It's quite a normal question from the person who cares about her or his academic performance. We may reassure you and say that it's completely legal because it's a registered company with a huge

staff. Ukessays.com states that its team of writers comprises more than 500 people. Part of them works in the main office, others are hired on a freelance basis. But all of them went through training, and the quality of their work is carefully checked by the quality team of the service. It's stated that all company's staff, including the writers, have degrees in their chosen fields. Moreover, a significant part of writers have more than one academic degree. Due to the existence of such a huge number of qualified writers, the paper quality should be perfect. You may even open the page with areas of expertise of Ukessays.com and see how many writers specialize in this or that area. But despite the sincere pledges of top quality, some clients remain unhappy with the assignments they get. Most commonly, Ukessays reviews contain complaints about the poor quality of the whole paper or the part of it, delayed delivery, or discrepancies between the grade they'd ordered and what they got. As a result, the Ukessays rating is quite poor.

Ukessays.com Customer

[UKEssay.com Review](#) [UKEssay.com Review](#) The prices pose a significant threat to low-income students. You may want to consider another platform as UKEssays offer services for outrageous prices. Moreso, the refund policy on UKEssays is unattainable. .

The pricing policy of Ukessays.com

As well as in the case with the previous section, you won't find a separate page with Ukessays prices. It's a considerable drawback because having a table with the service's pricing per page at hand is convenient for most clients. The only way to get a quote is to open an order form and fill in the details and information about your paper: subject, required grade, length and delivery time. So, empirically we'd managed to determine the minimum price of this service. We'd chosen the B grade of high school level. For greater accuracy, we'd selected the widespread subject such as art, and the standard length of the page (275 words). As a result, the final price was 95\$. To say that it's too expensive as for a school essay is understatement, even with the highest quality they provide. There's hardly one student who will want to pay so much money for it. Even if we move the deadline for an entire month, it will cost 86% of the standard order price – that's still too much. Ukessays.com has no loyalty program for regular customers. Instead of it, the section "Offers" contains time-limited special offers and discounts. Some of them expire and new ones appear. Clients may subscribe to a newsletter not to miss new discounts.

Unfortunately, no special offer will make this service available for low-income students.

Timely delivery is nearly the most important feature for students and the most significant sign of professionalism. The client can choose the deadline on the same page with the order form.

Mainly this aspect influences the final price. The minimum deadline in Ukessays.com is four office hours. The maximum is one month. Take into account that the writing period starts after receiving payment and selecting the appropriate writer. The latter step, by the way, can take managers approximately 24-48 hours. There exist some negative reviews connected with the late delivery. But the high part of responsibility lies on the client. He or she should upload as many detailed instructions and sources as possible. The finished order can't be sent until the second part of the payment is received, and it's taken from the balance automatically.

Quality level, Plagiarism UKEssay.com Review

Revisions and Money-Back Guarantees of Ukessays.com

The section with terms of use has the information regarding the revision policy. Each client has a right to request the revision within 7 days after receiving the final version of the paper. The valid reasons for request are the discrepancies with the client's requirements or order specification or broken promises of the company (100% plagiarism, etc.). The case is handled by the writer, but if they can't reach a consensus, the dispute department should get involved and solve the dispute. In case when a client places a request after the specified period of time, the agency can agree to make amendments but at an additional cost. As for refunds policy, the information isn't clear. The site states that clients can request a refund in case of broken promises: authenticity, in-time delivery and requested grade. Namely, the agency deals with this matter, so there's no guarantee that it will make a decision in client's favor. Quite often, independent Ukessays reviews report the impossibility to get amendments and refunds because of the cloudy policies. Is Ukessays reliable? We have difficulty to give a precise answer. Clients complain about company's refusals for refund because of the poor quality of final paper or low grade they'd received because of the service. Support managers just answer that the quality is good and it's their justification of the refusal. This fact is a very serious stain on their reputation. Ukessays.com states that outstanding customer support is the reason why they're the best. Clients can get a consultation on all matters at any time. It's possible to contact the manager by live chat, or message on WhatsApp. But if you place an order at night, no one can help you. The contacts section contains information about opening hours, and the working day in this company ends at 9:00 PM on weekdays and at 6:00 PM on weekends. But many students do their assignments until late at night, so no wonder they can decide to buy a paper during this time of the day. And in case of any problems, no one from the support team can help. The section "Support" on the toolbar at the top of the page lets the client find the article in FAQs that can help in solving the widespread issue. But in comparison with other services that provide 24/7 customer support, Ukessays.com loses.

Samantha Barry, 's conclusion

UKEssay.com Review UKEssay.com Review I tried the services of UKEssays, but I was highly disappointed. The prices were extremely high and the quality was well below expectations. Additionally, my deadline was not met; I received my essay 3 days after the deadline.
