

Winners!

Hello everyone and thank you so much for entering!

I started this contest because I had genuinely no idea what to do with my unlimited rare myo, and I was hoping to get a kalon I at least liked.

I knew the kalon community was full of great designers, so my expectations were already pretty high for the quality of designs I might receive as entries.

And then you guys completely blew them out of the water.

I was honestly astounded by the level of creativity and ingenuity displayed in your designs. All of them were totally unique, original ideas that I had never seen before, and you all took things I liked in kalons and elevated them beyond anything I could have come up with on my own. Every single design was amazing, and deserves to be a real kalon someday.

Picking the winners was insanely hard, and I spent ages deliberating the final results. Y'all made this difficult!!

I loved your entries so much in fact, that I decided to add two extra prizes!! either an unlimited standard myo or one common edit, to be picked at the winners discretion.

Each entry will also receive a pet worth 25c\$ to use on a standard edit! Send a trade 2 get ur pet ;)

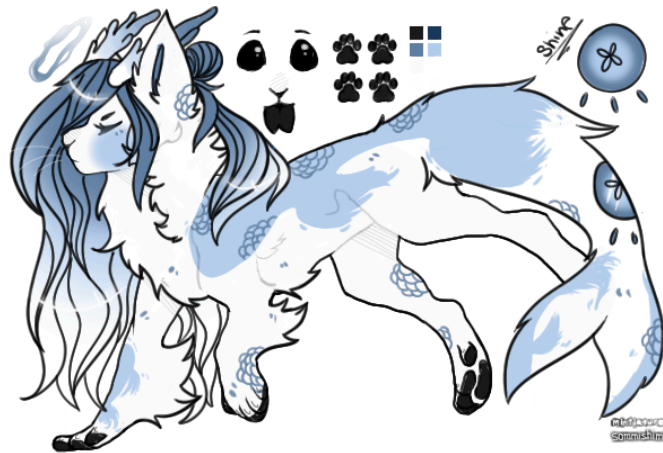

If you do not receive a main prize, **do not be discouraged!!** You are all amazing designers, and I hope to see more of your work around the fanclub or as official adopts someday!

And as much as I would love to give you all rare myos, every contest has to have a winner, so without further ado, here are the results:

(Winners, if your prize has options, please pm me your choice.)

runner ups:

runner up one - nektar
prize choice of unlim. standard myo or one common edit

I absolutely adore this fishy gal!! The simplicity of her color scheme is really nice, and though i'm ordinarily not partial to fishtails, you made me love them <3 her hair is also super cute!!! I lov her lil black eyes and blue blush too!

runner up two - surfingmars #3
prize choice of unlim. standard myo or one common edit

this was by far my favourite of your entries!! I love the purple and gold color scheme, the goat pupils and the facial markings. Everything in the design flows very nicely, and it is pleasant to look at.

(Seriously though, those facial markings kill me, they are so gorgeous <3

official placings

the margin between these placings was insaaaanely close you guys.

third place - ghod

prize options are whatever prize second place does not pick

hooooooooly crap. y'all tested me with this entry ghod. I have so much love for both the concept and sheer originality of this design, and while it is something i never would have come up with on my own, i love it to death. Like. alien?? spider eyes?? unique halo?? custom teeth and claws?? Glow? Tall boi?? Ref sheet with tailored info on specific traits and what they indicate? I was shook, i am unworthy of this design

second place - nrirai

either third or second place prize!! you have first pick

this design is magical. it has such a nice energy, a true blessed image. I also love how simple it is because it works?? The rainbow fade in the hair and tail is so nice, and you have made double ears my new favourite kal feature. Also!! The two lil buns!! Killed me. I am dead bc of them combined with the unicorn horn, what an iconic look, what an iconic kalon.

first place!!!!!!!!!!

one rare trait myo or a kit(s) from a future breeding w this kal and a kal of your choice

watchdog!

this design floored me; it is utterly gorgeous. watchdog, I am not kidding when i say this is my favourite design of yours, and is quite possibly my favourite kal of all time. You combined so many things i love into this kal without it seeming at all cluttered. I especially love the detail around their eyes and the skull patterning on her inner hind legs. Small attentions to detail like this make or break designs in my opinion.

The colour fade in her hair and tail is so incredibly pretty, and i love the neonish pallet you used. Also the way the halo sits low and encircles their whole head is a really nice aspect!!

(and dont get me started on the lil sparkles)

Every detail feels necessary and important to the overall look. I could gush for hours on how much i adore this kal, and how lucky i am to get to have them as my myo. I cannot wait to add them to my lil kal family!!!
