

Local outreach

Website

Hi (Ada),

I noticed your business while driving by and visited your website and saw that the small business part of your website was unfinished.

If you are tired of losing potential clients, I have researched top business and came up with a few strategies to redesign your website to gain more attention online and convert that attention into new clients.

If you are interested, I am available to meet in person next week between 3-6 pm.

Looking forward to your response,
Logan Cox

Warm outreach

Website Trouble

Hi Mr. Rundal,

Thank you for adjusting the leg adjustment back in May. I visited your website and noticed a few things that are keeping you from getting to the next level.

If you are interested in gaining more attention online and helping more clients through some redesigning on your website and facebook profile. I have researched other top Chiropractic businesses and came up with several top strategies.

If interested, we can schedule a call in the next couple of days.

Looking forward to your response,

Logan Cox
