

Kade

Kade is a very emotionless character who doesn't like socializing with other people, likes to distance himself from others and is cold to anyone who tries to talk to him.

I'm looking for a young, soothing, emotionless and bland male voice for this character.

Lines

“Hmm where is that book on healing?”

“I wouldn’t go there if I were you, the Alkanians (elk-a-nian or
Alk- a-knee- an)
aren’t exactly fond of you”

“I’m sorry, it's just how it is”

“This place..... It feels... Familiar”
