

## Geometry Concentration (Directions)

Materials: shape and attribute cards (cut from gameboard)

Number of players: 2 - 4

Directions:

1. Cut the 16 game cards from the gameboard.
2. Lay the concentration cards face down in an array with four rows and four columns.
3. Players take turns turning over two cards. To be a pair, a shape card must be matched with the correct attribute card.
4. If the cards match, the player collects the matches and the next player takes a turn. If the cards do not match, the player turns them face down and the next player takes a turn.
5. Play continues until all matches have been made, and the winner is the player with the most matches.
