**Course Description:**

CTE (career and technical education) Leadership allows each student who loves learning in a hands-on and reflection-based way to thrive! Develop your own leadership skills to use in your future CTE classes as well as your future career. From evaluating leadership effectiveness and organization requirements, individual and group motivation strategies, implementing mission and goals, ethical behavior, personal leadership style and adaptation, impacts of power, facilitating employee development, coaching, managing change, and effective conflict resolution.

### **Expectations for Students**

An effective education is vigorous, demanding, deeply satisfying and requires behavior conducive to achieve excellence. High School is a fundamental asset in building a student's character, citizenship, and employment future.

1. Respect oneself, fellow students, the class, and the instructor.
2. Be ON TIME for class with all materials needed.
3. Have your chromebook daily and access to the internet outside of class. It is important to check your MHS email daily for updates and information. For this class we will only have access to technology (chromebooks & phones) on Tuesday's and Thursday's.
4. Have an open mind and allow oneself to learn new knowledge and skills.

### **Assessment:**

Your success will be determined by mastery of the subjects covered. Mastery will be determined through reading of the chapters and completing critical questions, discussion forums, completion of end of chapter projects, and hand written reports. It is your responsibility to keep all graded work returned to you until the end of the semester. You may be asked to verify your grades with the instructor.

We have read through the following expectations and understand the classroom responsibilities.

\_\_\_\_\_  
Student's Signature

\_\_\_\_\_  
Parents' Signature
