# Online Marketing Tips - Try This For Quick Cash

Once in a while I try to come up with marketing strategies to make easy cash that I love sharing with other individuals. The following online marketing business method will take about 4 weeks to put in operation and should be able to create significant result if carried out appropriately.

This earning money opportunity is about leveraging the talents of others. I don't see any reason why you have to do the entire job yourself if there is an alternative. You start by sending email to several top internet marketers. Ensure the email you send out is professionally written. In the email you are going to offer to promote one of their products with no strings attached. Yes, no affiliate link or what so ever. They make a clean 100% profit on every sale. Only a crazy guy would ignore this kind of offer.

Here is how it works. Mail the marketers that before you proceed to promote their business, you will need to review the product as that is the only way you would have a good conscience. The online marketer will appreciate this and have no issue forwarding you a copy of the review. Carry out these procedures with about 10 other people.

<https://www.emscorporate.com>

After reviewing the products, put all the reviews into one PDF and name the something like, "The Unbiased Reviews of The Top Internet Marketing Business or Products" and give it as a free download for people to opt into your list. You will have to do a bit of internet marketing to get the link to download out there but that beyond what we are discussing in these online marketing tips articles. You can make use of marketing technique like article marketing, blogging or even PPC to get leads. You can decide on what ever marketing strategy that you want.

Here is the main aspect that is going to help you in earning money. Come up with a companion product to offer along with the marketer's product and you are going to charge a nominal fee of maybe \$7. Ensure the information in the product is valuable to the buyer. You should know precisely what is missing in the original product because you have the complete merchants review and you have carried out your own findings.

Your PDF shouldn't have any affiliate link to the merchant's product but rather a link to YOUR companion product.

There is certainly no reason why with a little bit of work, you won't be earning money within 4 short weeks with minimal effort other than reviewing the 10 products and creating your own short companion products for each and every one. The companion products don't have to be more than 10 pages with small tip on how to get the most out of the product.

Give the above tips a shot and you will find internet marketing business rewarding as well as earning money without much job.
