

Rules for Wallyball Squares

Prices and payouts are as follows:

- Entry fee is \$5 per square payable to Wally
- \$5 to whoever has the matching score (units digit) at the end of each minute between 14 and 1. (\$280 total)
 - So if you match at the start of the quarter, that doesn't count.
 - It refers to the score when the :00 is on the clock. So if the score is 3-3, the Chiefs start a play with 9:02 on the clock and score, and the clock then stops with 8:55 on it, then we are recording the 9:00 winner as the 3-3 person.
 - There will therefore be 56 winners of \$5 prizes
- \$55 to the person with the correct score at the end of the 1st, 2nd, and 3rd quarters
 - (\$5 for having the correct score at 0:00 + \$50 bonus) (\$165 total)
- \$55 to the person with the correct score at the end of the game.
 - If the game is tied after four quarters, there is no 4th quarter payout, nor will there be any payout for the minute marks of overtime.
 - It is impossible to plan for this in advance and OT in the Super Bowl has only once gone to overtime. (Sorry Falcons fans).
-
