

September, 2025

Welcome Students and Guardians,

The 2025-2026 school year has finally arrived! Hope you had a terrific summer. The purpose of this letter is to inform you of a couple of communication devices that you can utilize to better meet the needs of the students this year.

First, my classroom website that I have created will help the students' as well as parents/guardians know exactly what is expected on a weekly basis. When you enter my website, you will find grading requirements, classwork assignments as well as other important information for Science and Social Studies. As we continue throughout the year, I will attach useful links that the students can use to reinforce the concepts that I am teaching in class. Hopefully, you and your child will be able to benefit from my classroom website this year.

Second, as we go along throughout the year my grading portal will be open and you will be able to check your students' grades for my Science or Social Studies class at any time. Graded assignments will be posted weekly and if there is ever a time when you do not see a grade for a particular assignment it means the assignment was not turned in. This is an easy and fast way to check on the progress of your child in Science and Social studies

on a daily, weekly or monthly basis. If you have any questions or concerns do not hesitate to contact me at any time.

Sincerely,

Mr. Rockwell
