FALLS CHURCH, VA - Governor-Elect Glenn Youngkin today announced key members of the Youngkin Transition landing teams that will coordinate with the cabinet secretaries from the current administration and conduct due diligence across all agencies so that the Youngkin administration will hit the ground running and begin delivering on its promises on Day One.

“In order to change the trajectory of our great Commonwealth, our transition team is utilizing the vast experience of business owners, law enforcement officials, veterans, healthcare providers, industry experts, and—most importantly—parents to determine how government can begin to serve Virginians better and start delivering on our Day One promises of better schools, safer streets, a lower cost of living, and more jobs,” said Governor-elect Youngkin.
