

Ash of Gods: Redemption REWORKED — A Massive Combat Overhaul Arrives on Mobile

Nicosia, Cyprus — October 2025 — Turn-based RPG Ash of Gods: Redemption has just received its most significant update ever — the REWORKED edition — now available on both Google Play and iOS. This monumental update brings a completely overhauled combat system, new movement mechanics, smarter AI, improved balance, redesigned skills, cards, and items — all running at **a crisp 60 FPS**, doubling the old 30 FPS cap.

Since the original release in 2018, the developers at AurumDust have been carefully listening to community feedback. The REWORKED version is the direct result of years of iteration, player insights, and a desire to make every battle fair, tactical, and satisfying.

Players can now choose between the Vanilla and Reworked versions of the game — preserving the original experience while offering a deeply refined alternative for those seeking something new.

“The Reworked version is our way of saying thank you to the community,” says AurumDust. “We’ve rebuilt the foundation of the combat system — fixing what felt unfair, rebalancing what was frustrating, and improving everything that players told us mattered most.”

Key Features of the REWORKED Version:

-  Completely redesigned combat system — built on community feedback
-  New movement mechanics — units can move multiple times per turn
-  Smarter AI — more tactical and challenging encounters
-  Overhauled balance, cards, skills, and items
-  Major UI/UX improvements and quality-of-life updates
-  Smooth 60 FPS gameplay for a modern experience
-  Two modes available: Vanilla and Reworked — play your preferred version

Free Demo Now Available on Google Play

To celebrate the REWORKED launch, Ash of Gods: Redemption is now also available as a [free standalone demo on Google Play](#). New players can experience the beginning of the story and the new combat system without any cost — a perfect way to discover this tactical RPG before diving into the full game.
