‘The mobility in Romania was a lifetime experience!’
(A report written by George, 11 years old, 1 DimotikoSxoleio Triandrias,

Thessaloniki, Greece)

We travelled to Bucharest Romania. We visited the House of People. It was huge and I liked it very much.

The next day we travelled by bus to Amara. The way students and teachers welcomed us in Secondary School George Valsan was very moving. I will never forget it! There, we met children from the other countries Portugal, Poland, Bulgaria and Turkey and we had our presentation. We also met the mayor of Amara who was very friendly.

The following days we visited Saint Nicholas church, Amara Dino Park where we saw a lot of dinosaur models in various sizes.

We also visited the famous Bran Castle. The castle was very big and a little bit scary!

In the national museum of Agriculture we painted our own cups and during the last day we had a treasure hunt, sport games and art workshop in Amara Park.

Sadly, we had to come home! I've made a lot of new friends from all over Europe!
Thank you, Erasmus+ !!
