

Parent Information: Number Patterns(1st Grade)

First grade students need to count forward and backward from any number between 1 and 120. They need to skip count by twos, fives, and tens and use skip counting to find the total number of objects in a set.

There are patterns on a hundred chart. You can use these patterns to skip count. The pattern for skip counting by fives is shaded below.

1	2	3	4	5	6	7	8	9	10
