Attachments for Work: [3rd Work](#)

Thirty Days Hath September

Thirty days hath September,

April, June, and November.

All the rest have thirty-one,

But February has twenty-eight alone,

Except in leap year, that's the time

When February's days are twenty-nine.

Note Well: This is the summer assignment for the incoming 3rd graders. The students need to read the book, memorize the poem, and study math skills in preparation for the diagnostic assessment that takes place during the first week of school.
