As part of ACM-W UK initiative to work closely in partnership with high schools and colleges, volunteers are requested to create a video to share with young people to encourage them to consider computing and related STEM subjects for academic and career choices. The video lasting no more than 5 minutes addressing the following questions, is aimed at giving the audience an opportunity to understand career options and the necessary skills needed.

1. What is your name? (not applicable for interview)
2. What is your current position and industry?
3. Describe a typical day at work.
4. What is your educational background?
5. What other skills do you need to perform in your job?
6. What are the perks you enjoy in your current job?
7. What are the challenges you face in your current job?
8. What subjects did you take when you were in high school and /or college?
9. What do you enjoy doing during your free time?
10. One piece of advice you would give to your younger self:
11. 2-3 off-script questions (to be agreed ahead of time with participant of interviewing)
