EDUCATIONAL PROGRAMS FOR GIFTED/TALENTED STUDENTS

1. The Sedgwick School Committee is committed to an educational program that recognizes and responds to the unique abilities of each student. Providing for students with special academic, intellectual or artistic aptitude is part of the program. While the regular program of instruction is supportive of gifted students, exceptional needs may require additional and special services.
2. The Director of Special Services, in cooperation with Sedgwick School staff shall be responsible for establishing procedures for the identification of Sedgwick students for the gifted/talented program, for the appropriate placement of students in the program and for the development of programs that meet the needs of identified students.
