

Google Classroom Tutorial for Students

- This is FOR students and shows them how to “write” on a PDF so you (the teacher) don’t have to convert or change anything just so they can type/write on them

<https://vimeo.com/445305642/6d28ff2ce9>

If the students might need to write on the slides, you could add a screenshot of just the assignment slide

(<https://www.loom.com/share/f6d8686c859d41b4b3c9e90800c86b77>).

You could also convert the PDF into PowerPoint then into Google Slides (<https://www.loom.com/share/9f3a1985e70241b69319c6c605ce4b44>) if you want to be able to edit the slides before sharing.

How to “digitize” PDF worksheets for Google Classroom

- Includes various ways for students to submit responses to questions
