

Job Title: Senior Backoffice Officer

Location: Larnaca, Cyprus

Salary: 2000-2500 eur + bonus

Company: Vittaverse Ltd.

About Us:

Vittaverse is an award-winning, multi-regulated forex and CFD brokerage built on innovation, transparency, and client trust. With a strong presence across international markets, we are committed to delivering exceptional trading experiences supported by operational excellence and financial integrity.

Role Overview:

We are seeking a **Senior Backoffice Officer** with proven experience in the forex industry to join our team in Larnaca. The successful candidate will bring strong expertise in backoffice operations, payment systems, and technology integrations within a brokerage environment. This position requires a highly organized professional capable of overseeing daily backoffice processes, troubleshooting technical issues, liaising with third-party providers, and ensuring smooth operational performance.

Key Responsibilities:

- Oversee and manage the full spectrum of backoffice operations, ensuring timely and accurate processing.
- Perform daily monitoring and of client deposits, withdrawals, and internal transfers.
- Ensure seamless functionality of backoffice systems, including FXBO.

- Troubleshoot technical and operational issues encountered by the team, escalating to technical teams when required and pushing for timely resolution.
- Liaise with third-party technology providers and payment service providers (PSPs) to resolve operational and system-related matters.
- Prepare and deliver reports to senior management on backoffice operations, client funding flows, and system performance.
- Maintain strong internal controls to ensure compliance with regulatory and operational Requirements.
- Supervise and mentor junior backoffice staff, providing guidance and ensuring adherence to procedures.

Required Qualifications:

- Minimum 3 years of professional experience in backoffice operations within the forex or financial services sector.
- Proven hands-on experience with **FXBO** and MT5 backoffice systems.
- Strong background in working with third-party technology providers and PSPs.
- Solid experience in troubleshooting technical and operational issues, with the ability to escalate and follow up with technical teams until resolution.
- Strong understanding of brokerage operations, client fund flows, and settlements.
- Familiarity with international financial regulations is an advantage.
- Proficiency in Excel and operational systems.
- Excellent communication, organizational, and problem-solving skills.
- Ability to work independently while managing and supporting a team.
- Fluent in English.

What We Offer:

- Competitive salary package with performance-based incentives.
- A collaborative and supportive work environment.
- Opportunities for professional growth within an award-winning global brokerage.
- Exposure to advanced trading systems, tools, and international markets.
