Frequently asked questions
How long will it take me to complete the NCLEX review.

1. Each lecture is 2 hours long.
2. Each NCLEX question takes an average of 2 minutes to complete.

Calculations:

1. **Lecture Videos:**
   - Total number of lecture videos: 58
   - Time per lecture: 2 hours
   - Total time for lectures: 58 videos * 2 hours/video = 116 hours
2. **NCLEX Questions:**
   - Total number of questions: 2247
   - Time per question: 2 minutes
   - Total time for questions: 2247 questions * 2 minutes/question = 4494 minutes
   - Convert minutes to hours: 4494 minutes / 60 minutes/hour = 74.9 hours

Total Study Hours:

- Total time for lectures: 116 hours
- Total time for questions: 74.9 hours

Total study hours required: 116 hours + 74.9 hours = 190.9 hours
Weekly Study Hours for an 8-Week Schedule:
To spread this over an 8-week schedule:

- Total weeks: 8
- Study days per week: 6 (Monday to Saturday)

Total study days: 8 weeks * 6 days/week = 48 days

- Total hours needed: 190.9 hours

- Study hours per day: 190.9 hours / 48 days ≈ 4 hours/day

Summary:
A student will need approximately **190.9 hours** to complete the entire NCLEX QBank of 2247 questions and watch each lecture. This translates to about **4 hours per day** if studying 6 days a week over 8 weeks.

How should I pace my study?
Pacing your study effectively is crucial for thorough preparation without burnout. Here's a suggested approach to pace your study over an 8-week period, based on the estimated 190.9 hours needed:

Weekly Breakdown

Week 1-4:

- **Focus:** Foundational topics and high-yield subjects.
- **Daily Study Time:** 4 hours per day.
- **Total Weekly Hours:** 24 hours.

Week 5-8:

- **Focus:** Advanced topics, comprehensive review, and practice tests.
- **Daily Study Time:** 4 hours per day.
- **Total Weekly Hours:** 24 hours.

Daily Breakdown

Monday to Friday:

1. **Lecture Videos:** 2 hours
    - Watch one lecture video (2 hours).
2. **NCLEX Questions:** 2 hours
    - Complete approximately 60 questions (assuming 2 minutes per question).

Saturday:

1. **Review and Practice:** 4 hours
    - Review key concepts from the week.
    - Complete additional practice questions.
    - Go through NCLEX flashcards.

Sunday:

- **Day Off:** Rest and recharge.

Week 2-8

- Follow a similar structure, adjusting the lecture topics and practice questions accordingly.

Adjustments and Flexibility

- **Adjust as Needed:** If you find certain topics more challenging, allocate more time to them.
- **Breaks:** Take short breaks during study sessions to maintain focus and prevent fatigue.
- **Practice Tests:** Incorporate full-length practice tests towards the end of your study schedule to simulate exam conditions and identify areas needing improvement.

Final Tips

- **Stay Consistent:** Stick to the schedule as closely as possible.
- **Active Learning:** Engage in active learning techniques such as summarizing, teaching back the material, and using mnemonics.
- **Self-Care:** Ensure you get adequate rest, nutrition, and physical activity to maintain overall well-being.

By following this paced study plan, you can cover all necessary material comprehensively and be well-prepared for your NCLEX exam.
