Quaranti1

The screenshot shows the Microsoft Access interface for the 'frmTreatmentHistory' form. The form contains the same data as the previous image. An error message dialog box is displayed over the form, stating: 'Sapo Databsis W40' (sic) with a yellow warning icon and the text 'You must enter a value in the 'tblTreatmentHistory.QuarantineID' field.' The dialog has 'OK' and 'Help' buttons. In the background, the 'Quaranti1' field is visible but empty. The left-hand pane shows the 'All Access Objects' list, and the bottom status bar indicates 'Record: 1 of 1' and 'Unfiltered'.
