- Students must earn at least 0.5 PE credit in their 9th grade year OR be enrolled in a PE class either semester of their 10th grade year to be eligible to participate.
- This pathway is available beginning in the 10th grade year. There is no retroactive accounting of past sports participation.
- **SENIORS are only eligible in first semester (Fall season only).** A senior **can not** earn this credit in second semester.
- Students must complete the season in good standing to earn credit, along with **2 additional assignments** that **MUST** be completed by the designated due date (an activity log & a proficiency reflection). The PE teacher will provide this information once the student is on the team.
- Each season is equal to .25 credits.
- Only up to an additional .5 credit (two seasons) through athletics will count towards satisfying an elective credit.
- This credit will garner only Pass/Fail in terms of a grade.
- Coaches and designated PE teacher will certify that the student fulfilled requirements and completed the season before the credit is granted.

I verify that the student plans to apply for the successful completion of this sport to satisfy the Physical Education Credit required for graduation.
