Privacy Policy — Sushi Merge

Effective Date: 07/31/2026

Developer: DevLab VF ("we", "us")

This Privacy Policy describes how the Sushi Merge application (hereinafter referred to as the "Game") processes user information.

1. Data We DO NOT Collect
We do not collect, store or share any personal data of users with third parties. The game does not use advertising networks, analytics services or behavior trackers.

2. Local Data Storage
Game progress (sushi collection, currency, achievements) is stored exclusively locally on your device using the standard Android storage mechanism. This data is not transmitted to any servers and is deleted when the application is deleted.

3. Google Play Games Services
The game is integrated with Google Play Games Services for logging in with a Google account and participating in leaderboards. If you log in through this feature:
- Your data (player name, account ID, results) is logged in and processed by Google in accordance with the Google Privacy Policy.
- We only receive your in-game name for display in the app and do not have access to other data from your Google account.
- Using Google Play Games Services is completely optional.

4. App permissions
The game requests permission to access the Internet (INTERNET), which is used exclusively for the operation of Google Play Games Services (login, leaderboards).

5. Children
The game is not designed to collect personal data from children and does not contain features that require it.

6. Changes to this Policy
We may update this Policy. Significant changes will be announced by updating the app page on Google Play.
