Hey (name)

I was checking out ads run by law firms in the Facebook Ad library
Yours specifically caught my attention cause compared to others,
Your caption was just 2 lines long whereas others had captions as long as a whole paragraph

So I checked your Instagram and you've done an amazing job in creating your posts
Majority of them can catch someone's attention who is just scrolling by.

Honestly, I think the subject lines for your Facebook ad were just too plain and could be improved,
So I've dropped a few fascinations for you as a free gift
Let me know if you like them and feel free to adjust them however you like.

Kind regards,
Rinil
