THE “WHY” BEHIND OUR DRESS CODE

Saint Martin is a private school of choice. We are part of the Cristo Rey Network of 38 Schools nationwide that serves young adults by offering a faith-based education grounded in a professional work study model that prepares students for College, Career and lifelong success. Our dress code is part of our brand. Countless studies affirm that school dress codes help keep students focused on their education, not their clothes. School dress codes create a more level playing field among students, reducing peer pressure and bullying. More importantly, wearing a dress code enhances school pride, unity, and community spirit. School dress codes have been linked to improved attendance and school culture. Because Saint Martin is a professional, Corporate Work Study school, it is even more essential that our students show up in a way that helps them make positive impressions and sets them up for greater opportunities for success. Our dress code demonstrates that we are one family, one team, one mission. We are Saint Martin Lions. Like all winning teams, we wear our brand with pride. #LionPride #LionStrong #StrongerTogether
